The above citizen left the following voice mail:

Quick Notes from Voice Mail

In regards to Bristow Superfund Site (should be Wilcox), there is a Bristow Hot Oil & Steam Company, that he has dumped oily waste, tank bottoms and such wastes many times, on the ground there and in their own property. Cover now with parking area.

Now they put sub well to wash trucks. ????

Prior to that washed trucks on the ground, he knows, he worked there, did that as part of his job duties.
